⬡ ExoNetworx

Cloud Hosting for IBM Connections

powered by Amazon Web Services (AWS)

Affordable, enterprise-class social collaboration platform without buying or managing servers.

Overview

ExoNetworx Cloud Hosting for IBM Connections, powered by Amazon Web Services (AWS), delivers an affordable, fully hosted and managed social collaboration platform—without the cost of hardware or associated maintenance. Built on IBM Connections, this world-class service allows your organization—whether it's a small business or a large enterprise—to build communities and networks of internal and external constituents for better team collaboration and decision-making.

This single-tenant solution adds greater security for your organization's data, while providing light branding and integration capabilities. Plus, with ExoNetworx's 24/7 Managed Services support, you can expect fast deployment and complete management of your environment.

Fast Deployment, Industry-Leading Collaboration

In as little as one week, you'll have a fully hosted and managed social collaboration platform with ExoNetworx Cloud Hosting for IBM Connections. Create and monitor internal and external communities, engage and respond to customers' needs, stay on top of relevant activities and increase personal and organizational effectiveness—all within a secure and private environment.

Powerful, Enterprise-Class Capabilities

ExoNetworx Cloud Hosting for IBM Connections helps your organization collaborate on projects, drive innovation and deliver results—all within the security of a virtual private cloud. Enterprise-class capabilities include:

- Activity streams and embedded apps

- Social mail

- Profiles

- Forums

- Wikis

- Blogs

- Social analytics

- Microblogs

- Mobile application access for Android and IOS

Key Benefits

- ✓ Enterprise-class collaboration

- ✓ Predictable monthly expenses

- ✓ No server maintenance

- ✓ 99.9% uptime SLA

- ✓ Affordable per-user pricing

- ✓ Fast deployment

- ✓ Fully managed environment

- ✓ 24/7/365 support

Controlled Access for Secure Data

With ExoNetworx Cloud Hosting for IBM Connections, you simply provision a virtual private cloud (VPC) and launch AWS resources in a virtual network that you define. You'll have complete control over your environment, including selecting your own IP address range, creating subnets and configuring route tables and network gateways.

In this private cloud environment, advanced security features—such as security groups and network access control lists—enable inbound and outbound filtering at the instance level and subnet level. You can also store data and restrict access so that it's only accessible from instances in your VPC, or you isolate it further using dedicated hardware.

Fully Managed Solution with 24/7 Support

With ExoNetworx Cloud Hosting for IBM Connections, you can count on world-class support from ExoNetworx. Not only can you be up and running within a week of signing the contract, ExoNetworx will provide complete management of your environment, including:

- Level 2 support

- Dot releases and updates

- Light branding (color scheme or logo)

- 99%+ uptime service level agreement

- Available same- and cross-region disaster recovery

- 24/7 SLA-based worldwide support and monitoring

- Robust data protection—from outside access through security, intrusion detection and firewall features with anti-virus

- Data backup retains nightly, weekly and monthly snapshots

- Self and bulk registration and password management

Key Benefits

- World-Class Collaboration – Increase collaboration between internal and external constituents for better personal and organizational effectiveness.

- Predictable Costs – Subscribe on a monthly basis to maximize resources and better control IT costs.

- Fast Deployment – Get started your IBM Connections licenses within a week of signing your contract with fast, managed deployment.

- High Availability – Count on an "always on" experience with 99%+ uptime SLAs.

- Data Security – Features a SAS 70 Type II-compliant hosting environment built on the most up-to-date best practices to safeguard your sensitive information.

- Branding – Add a logo, colors or other light branding to reinforce your organization's brand and drive consistent messaging.

- Flexible Options – Choose a package that best meets your needs and accommodate up to 20,000 users in your collaboration space.

- 24/7/365 Support – Count on an expert support team that provides 24/7/365 assistance as needed.

ExoNetworx Inc.

Since 2003, ExoNetworx has been a trailblazer in delivering IT resources in an easy and consumable format.

Today that format is known as a CLOUD service and it is all about using and paying for resources as you need them with the knowledge that it is being done better and cheaper than if you did it in-house.

ExoNetworx is the NEW utility you can subscribe to - Consume what you need when you need it with no long-term obligations or hidden costs. From pre-packaged SW solutions to providing a highly reliable, scalable, low-cost infrastructure platform in the cloud.

We understand these challenges and that is why we are 100% focused on IT infrastructure services so you can focus on what matters to you – strong business results
