Microsoft SharePoint 2010 Foundation

Affordable, enterprise-class team collaboration without adding IT resources.

Overview

Microsoft SharePoint 2010 Foundation—brought to you by ExoNetworx—delivers an affordable, enterprise-class collaboration platform as an easy-to-deploy cloud service. This powerful, subscription-based collaboration tool offers the same look and feel of the Microsoft tools you already use—without the need for additional hardware or IT resources. With "resourceless" IT, you'll increase service levels and better manage costs while attending to more strategic projects.

Fast, Out-of-the-Box Team Collaboration

With Microsoft SharePoint 2010 Foundation, you'll have the enterprise-class power you need to securely keep everyone in the loop and get the job done—without hiring a dedicated IT team. Team members can easily create and customize company intranets, websites, blogs, bulletin boards and document/image libraries to meet specific business needs and quickly access information to better collaborate with colleagues, customers, suppliers and more—anytime, anywhere and from most popular Web browsers. Some features include:

- Microsoft Office Integration – Deliver easy team collaboration with complete integration with Microsoft Office—no training needed.

- Document Workspaces – Create document workspace sites that can be used to collaborate on documents.

- Check-in/Check-out – Reserve documents for updating, and then check them back in when finished.

- Version Tracking – Track document changes and assign version numbers for easy auditing and fast rollback.

- Browser-based Customization – Customize pages and Web Parts to create websites that meet specific business needs.

- Online Status – View team members' current free/busy status by sending an email or instant message, or adding them to a contact list.

- Alerts – Add an alert to a list or list item and receive an email notification when changes are made.

- Template Gallery – Choose from multiple templates to customize SharePoint sites.

Because Microsoft SharePoint 2010 Foundation offers the same look and feel as the Microsoft solutions you already use, it's easy to add, change or delete users using a Web-based management portal, or delegate those permissions to others.

Key Benefits

- ✓ Enterprise-class collaboration

- ✓ Predictable IT expenses

- ✓ Fast deployment

- ✓ Near 100% uptime

- ✓ Familiar Microsoft interface

- ✓ "Resourceless" IT

ExoNetworx

Quick Deployment, Easy Administration

Our team works with you for a smooth, worry-free implementation, often in just a day or two, delivering the most up-to-date Microsoft software available with near 100% uptime. Our service covers every facet of maintenance, updating, patch management, security and backups. And experienced customer support representatives provide 24/7/365 phone and email support for added assurance. Just stay tuned to the higher priority projects needed to support your company's core business while we take care of the rest.

Secure, Affordable "Resourceless" Solution

Subscribe to the Microsoft SharePoint 2010 Foundation for a predictable monthly per-user fee and get the enterprise-class collaboration tools your business demands—out-of-the-box and without investing in additional on-site IT resources. The solution is hosted within a state-of-the-art data center staffed by professional Microsoft-certified engineers to ensure that your data is always available and always protected.

Key Benefits

- Subscribe to services on a monthly basis to maximize resources and better control IT costs.

- Deliver proven reliability with a 99.999% uptime service level agreement.

- Receive up to 200GB total SharePoint space, unlimited users and unlimited data transfer for enterprise-class flexibility.

- Use a secure, easy-to-use Web-based portal for simplified administration and configuration.

- Receive comprehensive support via an online knowledge base and 24/7 expert support.

- Depend on daily backups and secure data transfer to/from the site for advanced protection.End-to-End Security – Secures data in-flight using SSL v3 and data at rest using AES 256-bit encryption, and keys are kept safely within the data center to restore data to any location.

- Anytime, Anywhere Data Access – Provides a fully redundant data storage infrastructure for storing and retrieving any amount of data, anytime—and from anywhere on the Web.

- 24/7/365 Support – Count on a dedicated and expert support and recovery team that provides 24/7/365 backup.

ExoNetworx Inc.

Since 2003, ExoNetworx has been a trailblazer in delivering IT resources in an easy and consumable format.

Today that format is known as a CLOUD service and it is all about using and paying for resources as you need them with the knowledge that it is being done better and cheaper than if you did it in-house.

ExoNetworx is the NEW utility you can subscribe to - Consume what you need when you need it with no long-term obligations or hidden costs. From pre-packaged SW solutions to providing a highly reliable, scalable, low-cost infrastructure platform in the cloud.

We understand these challenges and that is why we are 100% focused on IT infrastructure services so you can focus on what matters to you – strong business results
